

ABB softstarters

A part of your motor starting solution

Motors use almost one third of the world’s generated electricity. So it is safe to say that reliable motor operation is crucial to our modern way of life.

Why motor starting matters

For more information, please contact your local ABB representative or visit www.new.abb.com/low-voltage/products/softstarters

Motor starting solutions

Common applications for Softstarters

Centrifugal fan
Soft starting adjusted to application
It is possible to adjust the settings to fit almost any starting condition, from unloaded to fully loaded.

Centrifugal pump
Eliminating water hammering with torque control
The ABB softstarter feature torque control stop eliminates water hammering and prolongs the lifetime of the system, while reducing pump downtime.

Compressor
Full control of current with current limit
The feature current limit makes it possible to start the motor securely even in a weaker network, improving the availability of the equipment and system. Reducing the current means reducing the stress on cables, network and motor.

Conveyor belt
Avoid overheating with overload protection
ABB’s overload protection feature shuts down the motor in case of overload, avoiding overheating.

PANORAMA

Softstarters

Type PSR, PSE and PSTX

ABB softstarters

Overview

THE ADVANCED RANGE PSTX

Key features

- Multiple different start and stop ramps
- Built-in bypass for energy saving and fast installation
- Detachable IP66/4X outdoor keypad
- 3 DI, 3 DO, 1 AO, PTC/PT100, Built-in Modbus
- Complete motor protection
- Extensive functionality

THE EFFICIENT RANGE PSE

Key features

- Soft start/stop with voltage ramp and torque ramp
- Built-in bypass for energy saving and fast installation
- Easy set-up with graphical display
- Run, TOR and event output relays, AO
- Basic motor protection and current limit

Technical data

- Operational voltage: 208-600 and 208-690 V AC (2 frames)
- Rated control supply voltage: 100-250 V AC, 50/60 Hz
- PSTX rated operational current: 30-1250 A (inside-delta: 2160 A) (6 frames)
- Three-phase controlled
- Both in-line and inside-delta connection is possible

Certifications and approvals:

- CE, cULus, CCC, EAC, ANCE, C-tick, ABS, DNV GL, Lloyd's Register, CCS, PRS, Class NK

PSTX SOFTSTARTER HMI

Key features

- Customizable display for important status information
- Application assistant for fast and easy set-up
- IP66 (1, 4x outdoor, 12) protection against water and dust
- Easy to use with the large back-lit graphical display
- Detachable HMI for easy panel door mounting
- Set-up and firmware update the PSTX with USB connection - no need of supply or main voltage

THE COMPACT RANGE PSR

Key features

- Soft start/stop with linear voltage ramp
- Built-in bypass for energy saving and fast installation
- Run & TOR output relays
- Few items to stock – in total only 4 frame sizes

Technical data

- Operational voltage: 208-600 V AC (1 frame)
- Wide rated control supply voltage: 100-240 V AC, 50/60 Hz or 24 V AC/DC
- Rated operational current: 18-370 A (3 frames)
- Two-phase controlled

Certifications and approvals:

- CE, cULus, CCC, EAC, ANCE, C-tick, ABS, DNV GL, Lloyd's Register, CCS, PRS, Class NK

Softstarter values, benefits, case studies and features

SECURE MOTOR Reliability

Increase your motor's lifetime...

With ABB's softstarters, starting currents are easily optimized to your load, application and motor size.

...by protecting it from electrical stresses.

Over ten motor protection features are included to keep your motor safe from overloads and network irregularities.

RHOSS keeps air flowing with secured reliability

RHOSS, an HVAC specialist from Italy has managed to reduce the starting currents by 60% while keeping the short starting time that a scroll compressor needs.

Starting currents reduced by 60%

Softstarter Features	PSR	PSE	PSTX
Current limit	–	●	●
Current limit ramp and dual current limit	–	–	●
Electronic motor overload protection	–	●	●
Dual overload protection	–	–	●
Underload protection	–	●	●
Power factor underload protection	–	–	●
Locked rotor protection	–	●	●
Current/Voltage imbalance protection	–	–	●
Phase reversal protection	–	–	●
Customer defined protection	–	–	●
Motor heating	–	–	●
PTC/PT100 input for motor protection	–	–	●
Overvoltage/undervoltage protection	–	–	●
Earth-fault protection	–	–	●

● = standard, O = option, — = not available

IMPROVE INSTALLATION Efficiency

Reduce your installation time and panel size...

ABB's softstarters are easy to install thanks to their compact design and many built-in features.

...by having everything that you need built in.

Built-in bypass saves energy and space while reducing heat generation: a complete motor starting solution in one unit — designed and verified by ABB.

Xylem - South Africa

ABB's softstarters providing efficiency to the mining industry

Xylem Reducing the number of components by 80%, shortened installation time by 60%. Costs cut to half has helped Xylem sell twice as many panels with softstarters as before.

Total panel costs reduced by 50%

Softstarter Features	PSR	PSE	PSTX
Built-in bypass	●	●	●
Inside-delta connection possible	–	–	●
Graphical display and keypad	–	●	●
Detachable keypad	–	–	●
Motor runtime and start count	–	–	●
Programmable warning functions	–	–	●
Diagnostics	–	–	●
Overload time-to-trip	–	–	●
Overload time-to-cool	–	–	●
Analog output	–	●	●
Fieldbus communication	O	O	●
Event log	–	O	●
Multiple languages	–	–	17
Electricity metering	–	–	●

● = standard, O = option, — = not available

INCREASE APPLICATION Productivity

Reduce the number of production stops...

ABB's softstarters reduce mechanical stress on your application which increases uptime.

...by letting the softstarter do more than just starting.

Torque control, pump cleaning, motor break and many more features enables you to use your process to its full potential.

Yantai Guhe cuts costs by stopping pumps

Increasing application productivity at Yantai Guhe, a leading Chinese pump manufacturer, increasing productivity by solved water hammering with PSE and are now saving costs and winning orders.

Reduced maintenance costs by 40%

Softstarter Features	PSR	PSE	PSTX
Torque control	–	●	●
Torque limit	–	–	●
Coated PCBA	–	●	●
Limp mode	–	–	●
